

USA vs Paraguay – Real Betting Strategy Guide

World Cup 2026 Group D · June 12, 2026

Strategy Name: Home Anchor + H2H Trend + Injury Boost

Step 1 – Strength Score Calculation

United States:

- FIFA rank: 17 → strength points = $500 - 17 = 483$
- Home win % (last 10 home matches): 70%
- Goal difference (last 5 matches): +2 (11 scored, 9 conceded)

Score = $(483 \times 0.5) + (70 \times 0.3) + (2 \times 0.2) = 241.5 + 21 + 0.4 = 262.9$

Paraguay:

- FIFA rank: 40 → strength points = 460
- Away win % (last 10 away matches): 30%
- Goal difference (last 5 matches): -2 (4 scored, 6 conceded)

Score = $(460 \times 0.5) + (30 \times 0.3) + (-2 \times 0.2) = 230 + 9 - 0.4 = 238.6$

Step 2 – Apply H2H Multiplier

Last 3 meetings: USA won all 3 → multiplier = 1.15

Adjusted USA score = $262.9 \times 1.15 = 302.3$

Step 3 – Apply Injury Boost

Paraguay's key forward Julio Enciso is a major doubt (thigh injury)

Boost USA win probability by +3% → total edge factor = 1.03

Step 4 – Calculate Win Probability

USA win prob = $(302.3 \times 1.03) / (302.3 \times 1.03 + 238.6) = 311.4 / 550 = 56.6\%$

Draw prob = 25% (historical rate for CONMEBOL vs CONCACAF)

Paraguay win prob = $100\% - 56.6\% - 25\% = 18.4\%$

Step 5 – Find Value vs Market

Market odds: USA -110 (1.91 decimal) → implied probability 52.4%

Your probability: 56.6%

Edge = 4.2% (positive but moderate)

Step 6 – Kelly Staking

Full Kelly = $(0.566 \times 1.91 - 1) / 0.91 = 0.089$ (8.9%)

Fractional Kelly (25%) = 2.2% of bankroll

Recommended Stake:

2-3% of total bankroll on USA moneyline

Alternative Bets:

- USA over 1.5 goals (market +135, your prob 48%, edge 5.4%) → stake 1-2%
- Under 2.5 goals (market -180, your prob 64%, edge small) → stake <1%

Strategy Rules (Print and Keep):

1. Always calculate your own probability using real data.
2. Bet only if edge > 3% (casual) or >5% (strict).
3. Never stake more than 5% of bankroll per match.
4. Use fractional Kelly (25%) to reduce volatility.
5. Stop after 3 consecutive losses – review your method.
6. Track every bet in the included Excel tracker.
